

TO THE CITIZENS OF LOUISVILLE (especially those on St. Hwy 131 in the vicinity of Mutton Ridge):

Up until last Fall your board was discussing the possibility of turning Mutton Ridge into a campground per the results of the community survey from approximately 2009. After negative feed back from a few neighbors the board decided to research other avenues. Discussions about returns, land usage, traffic, noise, and odors led the board to contact the Shipley Center. We were then put in touch with a professor in the Engineering Department and learned that a class of his would love to have a project and could help us out. We (Larry and Gail) met with the professor for this class.

In early correspondence we mentioned the campground. However when we met (May 23) we let Professor Issen know that the campground would be at the bottom of the list due to neighbor input. The Professor preferred that the students be able to come up with their own ideas and suggestions. He reiterated that if any suggestions or conclusion were to be chosen or even interested in we would still need professional advice.

We appreciate your input, your message has been received. We are hoping that with some fresh, young eyes and minds involved, new and exciting ideas will be presented. PLEASE KEEP IN MIND THIS IS A STUDY ONLY! We will keep you informed of any upcoming meetings.

A handwritten signature in cursive script that reads "MG Schneider". The signature is written in dark ink and is positioned above the printed name.

Gail Schneider, Town Board Member
